EXPERIENCE

Proexelancers, Surat — *Angular Developer*

March 2023 - March 2024

- Worked on a project with 1 lakh users-based.
- Restructuring project from AngularJS to Angular 14.
- Worked on writing unit test cases for all components.
- Uses multiple material UI(like Angular Material,Nebular,Ng-Zorro).

PROJECTS

Student Management System— Html5,Sass,Typescript,Angular

- Build that app with SPA for showcasing proficiency in frontend development and problem-solving skills
- Impacting 100+ class teacher's to make attendance day to day.Teacher's easily find out students details with specific dates.

Student Management System— Html5,Css3,Javascript

- Developed a dynamic and user-friendly portfolio application.
- These tasks are for practice for UI/UX design and I learn a lot of things from css this project.
